

LEO ONE HOUR INTERIOR DESIGN CONSULTATION

As a special service for clients who wish to have a consultation for their homes, LEO Interior Design provides a one hour consultation for in-town clients. During the hour, I will assess any space(s) that you wish and suggest alternate furniture arrangements. By evaluating your design and space objectives, I can provide a prioritized list for your design. I will make suggestions for retail resources for furniture, fabrics, accessories, drapery and pillows so you are able to purchase items on your own. I will suggest paint colors--specifying the formulas and paint numbers. As the hour can move quickly, it is helpful to have any magazine tear-outs or materials ready to review. These can help define your design direction and point you toward a path of resources. If possible, I will bring my assistant to take notes that we will then supply to you at the end of the hour.

From this appointment, you will have a plan for your project moving forward as well as a path to follow to create a Lane Elisabeth Oliver interior. As questions often arise after the meeting, a complimentary 15 minute follow-up call is included. After the consultation, if you feel that you would like additional time, we can discuss our personal shopping services or our full-service design.

The one hour consultation fee is \$300.00 per hour and is due at the time of our visit. Due to scheduling for large projects we are only able to accommodate one hourly consultation client per month so please schedule early.

We look forward to working with you.
