## Selections by LEO

LEO Interior Design is excited to introduce an additional design service.

Update a room or several rooms with a unique interior design developed and created by Lane Oliver for a fraction of the cost of a custom design.

Separate from the standard design service, this new alternative (*Selections by LEO*) is a less expensive way to achieve a fresh new look. Lane will provide ideas to furnish and accessorize each room which you then purchase on your own through retail stores and catalog on-line resources.

To get started Lane will come to your home for a two hour design consultation. This two hour consultation is billed at \$300.00, collected at the consultation.

If you decide to proceed, Lane will request a design fee of \$3,750.00 for 25 hours of design ideas including a designer idea package with paint colors and furniture arrangements on a custom floor plan to help you design a single room.

This fee does not include any products. Meeting time is limited to the following:

- One 2 hour long meeting at your home
- One 2 hour long meeting at retail store for selections
- One 2 hour long meeting for install

These meetings as well as phone and e-mail communication will be scheduled weekly on the same day.

*This fee is based on in town design projects for a single room. Travel time over 30 minutes will be billed at the hourly rate of \$150.00 per hour.*
